additional sales tax. We aren't raising anything here. It's just a method of calculation for school aid formula. And those of you who support the concept, please support this amendment. We can work it out between now and Select, and we will have something other than property on which to base wealth for a school. We've relied too long, entirely too long, on property for financing our schools. There's nothing wrong with our school system here in Nebraska. The only thing that's wrong with it is that it's funded too much by property. Until we change the way schools are funded and schools are financed, we will not know property tax relief. We didn't know it with 1049...1059. We didn't realize it with 1050 because we aren't utilizing income. With that, I would ask your favorable vote for the advancement of AM1380 to LB 806. Thank you, Mr. Speaker.
